International Medical Education and
Research

FAIMER SCHOOL ID: F0003459

Enlisted with

Medical council of India (MCI)

Nepal Medical Council (NMC)

BACK GROUND

Doctors and supporting health professionals are the backbone of the health care delivery system. Yet the healthcare professionals & population ratio in our country is still one of the lowest in the world. At present the doctor population ratio in Bangladesh is 1: 3125.

Till now the available seats in medical colleges, public & private sector together is far too short to meet the requirement of the countries ever growing need in this sector. In our country a large number of students are willing to take part in the health care system, which is evidenced by the large number of applicants for admission in medical colleges. Unfortunately most of the eligible candidates are deprived from the opportunity of getting admitted in the medical colleges of Bangladesh due to lack of enough seats: This results in confusion over the career planning of the eligible candidates, whose desires and dreams to become a doctor would be nipped in the bud. Also migration of thousands of students for studying abroad, mainly in the neighboring countries resulting in constant draining of our national economy for supporting their studies and as a consequence dependence on other countries for education and health care delivery grows immensely. In this context, Dhaka Central International Medical College is a humble initiative to provide scope for the eligible candidates to contribute in the health sector of Bangladesh. DCIMC is a brainchild of some of the most generous business entrepreneur, doctors and philanthropist.

Message from Chairman

It is my honor to have this opportunity of welcoming the prospective student of Dhaka Central International Medical College. The journey of DCIMC began from 2012 with a promise to provide the best medical graduate and it lived up to its expectation from the very beginning. As the new students will take on this journey towards noble profession and prepare themselves to learn from attending patients in the hospital which is the ultimate learning ground for all the students and doctors. It is our responsibility and pleasure to direct and provide them with maximum facilities in terms of clinical practices and we are committed to it.

We are at the verge of developing the hospital to a state of art Medical College & Hospital. We furnished our college laboratory & museum of the basic subject with most modern and sophisticated equipments and Two, five headed microscope, one for anatomy and another one for pathology department for the better learning of our students. We have spacious well equipped library & lecture halls with full air conditioned. Side by side for the growing need of health service we have nursing institute where Diploma in Nursing Science, BSc in Nursing Science & Post Basic BSc Nursing are running. We furnished our hospital diagnostics & imaging center with all latest and modern equipments including 128 Slice CT Scanner Machine, 3 Tesla Super Conductive MRI, 1000mA True Digital Flat Panel Radiography and Fluoroscopy System, 4D Ultrasonography and advance fully designed portable x-ray. We have already started our NICU, ICU (EICU), SCU and Dialysis unit with full satisfaction of patients. Our aim is to provide most modern and sophisticated medical service to the common people of Bangladesh, with this idea we have also started Diabetic Center and Advanced Center of Kidney & Urology (ACKU) for the treatment of KUB diseases. All the clinical departments of the hospital fully prepared to arrange proper training facilities for the students, and thus will contribute appreciably in the health education of the country and we hope we can be able to provide good and affordable medical care to the people of our country In Sha Allah.

Since our college is approved and recognized by BM&DC, we are already admitting foreign student from session, 2015-16. Our 3rd batch passed MBBS courses successfully. We congratulate all the new doctors and upcoming doctors.

I truly believe and hope that the new students would leave no stones unturned to achieve the best outcome from this institution to alleviate human sufferings from disease & debility and contribute to the society with moral and dedication. Thanks to all the teacher and founder member of DCIMC as well as all the guardians for keeping their faith on us as one of the leading medical study centre and health care provider in the country.

DHAKA CENTRAL
INTERNATIONAL
MEDICAL COLLEGE

Dr. Md. Abdul Hye Chowdhury
Chairman, Governing Body
Dhaka Central International Medical College

It gives me immense pleasure and feeling proud for getting the opportunity to express my thoughts in the prospectus of 2019-20 which is going to be published by Dhaka Central International Medical College.

The delighted journey of this medical college was started back in the year 2012 by the grace of almighty. The students of 1st, 2nd and 3rd batches have completed their study and doing their best to serve the humanity with their conferred duties, responsibilities and dignity. To develop future generations and create promising doctors the authority along with the management are trying their best to provide all facilities as they did earlier and creating new possible opportunities for effective learning with experienced teachers, modern laboratories and hospital facilities. Digital class room with internet facility, well equipped laboratories and library, timely formative assessment and sufficient patients are also provided for practical learning of the students. As we know, communication lies at the heart of good medical practices and failures of it may lead to poor health outcomes, for that reason the environment is designed likely to develop the supportive skills by which the students will be encouraged to involve in the co-curricular activities like seminar, symposium and workshops.

We like to promote our ethos with excellence in medical education and research with a hope to make this institute as one of the best private medical college of Bangladesh.

Finally, this medical college likes to remain grateful forever to it's Honorable Founder Member, for his dedicated contribution and well served humanitarian attitude.

I wish all the very best for the prospecting students as well as the upcoming days of Dhaka Central International Medical College & Hospital (DCIMCH).

Professor Dr. Bidhu Bhushan Das
Principal
Dhaka Central International Medical College

Message from Principal

Message from Vice Principal

It is a great pleasure to me to welcome you in the Dhaka Central International Medical College. Education is considered to be a core instrument of human development. It is not just processes of giving knowledge but creates an understanding of moral and ethical values of human values. This college is one of the leading medical college of our country and become a centre of the excellence in a short period of its establishment.

Our motto is to provide quality medical education to our students and also produce good doctors with compassion and zeal to serve the society. This college has various teaching departments which are well equipped and have all the latest facilities to impart medical education. We have highly qualified faculty members having vast teaching experience and strong academic background.

We already admitted foreign students from session 2015-2016, about 50% of students come from abroad. The academic program is not the only focal point, various co-curricular activities are also planned.

Our brilliant students have brought success in academics activities as well as in co-curricular activities.

Best wishes to all my students, teachers, doctors and college staffs as well as hospital staffs.

DHAKA CENTRAL
INTERNATIONAL
MEDICAL COLLEGE

Vice principal
Professor Dr. Zakia Akhter

It is my immense pleasure to share with you that Dhaka Central International Medical College & Hospital is one of the leading medical college & hospital providing education and health care services of truly global standards for the last 8 years. Our goal is to produce competent, compassionate, reflective & dedicated health care professionals. Our vision is to deliver advanced, trustworthy patient service with rational & reasonable manner.

We've a robust presence across the nation about healthcare delivery which includes 24 hours Emergency Services, Primary Care, Critical Care with Indoor Hospital Services. More than 80 renowned different department consultants with both morning & evening, serving IPD & OPD patients. Our advanced diagnostic services & Specialized Centers are providing reliable diagnostic services for meticulous treatment. Towards the vision to deliver the latest specialized medical facilities to public, we have already developed Advanced Center of Kidney & Urology (ACKU), which is one of the advanced urological center in Bangladesh, Dhaka Central IR Suite, the first ever Interventional Radiology Center in Bangladesh. The hospital is serving patients from all classes. As a leading educational and health care organization DCIMCH develops and maintains a spirit of charity from the beginning. We emphasize the primary goal of improving patient safety and of promoting health in rural and underserved communities. We wish to rise above the realm of therapeutic care with a new focus on preventive care, to bring health to the community.

We're capable to serve up to 1000 patients daily through 60 examination rooms. We ensure optimum healthcare hospitality. The patients are closely monitored in their waiting time in outpatient clinics and any test works or procedures.

My gratitude & best wishes for all, those are associated with the continuous growth & reputation building of Dhaka Central International Medical College & Hospital.

Maj (Rtd) Dr. Mohd. Toufikul Muneem

NATIONAL GOAL & OBJECTIVES

To produce competent, compassionate, reflective and dedicated health care professionals who:

- consider the care and safety of their patients as their first concern.
- establish and maintain good relationship with patients, their attendants and colleagues.
- are honest, trustworthy and act with integrity.
- are capable of dealing with common diseases and health problems of the country and are willing to serve the community particularly the rural community.
- are committed to keep their knowledge and skill upto-date through "Continuous Professional Development".

MBBS COURSE OBJECTIVES

At the end of the MBBS course students shall:

1. Acquire knowledge and understanding of

- the sciences upon which medicine depends and the scientific and experimental methods.
- the structure, function and normal growth and development of the human body and the workings of the mind and their interaction, the factors which may disturb these, and the disorders of structure and function which may result.
- the etiology, natural history and prognosis of the common mental and physical ailments. Students must have experience of emergencies and a good knowledge of the common diseases of the community and of ageing processes.
- normal pregnancy and childbirth, the common obstetric emergencies, the principles of ante-natal and post natal care, and medical aspects of family planning and psycho-sexual counseling.
- the principles of prevention and of therapy, including health education, the amelioration of suffering and disability, rehabilitation, the maintenance of health in old age, and the care of the dying.
- human relationships, both personal and social and the interaction between man and his physical, biological and social environment.
- the organization and provision of health care in the community and in hospital, the identification of the need for it, and the economic, ethical and practical constraints within which it operates, and
- the ethical standards and legal responsibilities of the medical profession.

**DHAKA CENTRAL
INTERNATIONAL
MEDICAL COLLEGE**

MBBS

COURSE OBJECTIVES

2. Develop the professional skills necessary to -

- elicit, record and interpret the relevant medical history, symptoms and physical signs, and to identify the problems and how these may be managed.
- carry out simple practical clinical procedures.
- deal with common medical emergencies.
- communicate effectively and sensitively with patients and their relatives.
- communicate clinical information accurately and concisely, both by word of mouth and in writing, to medical colleagues and to other professionals involved in the care of the patient.
- use laboratory and other diagnostic and therapeutic services effectively and economically, and in the best interests of his patients.

3. Develop appropriate attitudes to the practice of medicine, which include -

- recognition that a blend of scientific and humanitarian approaches is needed in medicine.
- a capacity for self-education, so that he may continue to develop and extend his knowledge and skills throughout his professional life, and recognize his obligation to contribute if he can to the progress of medicine and to new knowledge.
- the ability to assess the reliability of evidence and the relevance of scientific knowledge, to reach conclusions by logical deduction or by experiment, and to evaluate critically methods and standards of medical practice. a continuing concern for the interests and dignity of his patients.
- an ability to appreciate the limitations of his own knowledge, combined with a willingness, when necessary, to seek further help, and
- the achievement of good working relationships with members of the other health care professions.

MBBS COURSE OUTCOMES

To achieve the National goal and course objectives, a set of "Essential learning outcomes" need to be made by the students of medical colleges. Upon completion of MBBS course and students must be able to demonstrate their knowledge that they had gathered through the essential learning.

These "essential learning outcomes" are grouped under three board headings:

The graduate with knowledge of scientific basis of Medical Practice

The graduate as a practitioner

The graduate as a professional

DHAKA CENTRAL
INTERNATIONAL
MEDICAL COLLEGE

MBBS COURSE BASIC INFORMATION

1. Name of the course

- Bachelor of Medicine & Bachelor of Surgery (MBBS)

2. Basic qualifications & prerequisite for MBBS course

- HSC or equivalent with Science (Biology, Physics, Chemistry).
- Candidate has to secure required grade point in the SSC and HSC examinations.
- Candidate has to secure required grade point in the MBBS admission exam.

3. Student selection procedure for MBBS course

As per approval by the DCIMC admission committee, selection will be made -

- According to the MBBS admission test merit list.
- 5% of total students will be selected based on poor and meritorious quota/freedom fighter quota.

4. Medium of instruction

English

5. Duration

MBBS course comprises of five years, followed by logbook

Foreign student admission requirements

Foreign students need to apply according to the rules & regulation of their respective countries through their Embassies. Students need to collect equivalence certificate of S.S.C/'O' Level and H.S.C/'A' Level from the Director General of Health Services, Governments of People's Republic of Bangladesh.

MBBS COURSE BASIC INFORMATION

Course structure, duration and marks distribution

The MBBS course is divided into four phases.

| Phase | Duration | Subjects | Exam Marks | Examination |
|-----------------------|----------|---|-------------------|--------------------------|
| 1 st Phase | 1.5 Year | Anatomy Physiology Biochemistry | 500 400 400 | First Professional MBBS |
| 2 nd Phase | 1 Year | Community Medicine Forensic Medicine | 300 300 | Second Professional MBBS |
| 3 rd Phase | 1 Year | Pharmacology & Therapeutics Pathology Microbiology | 300 300 300 | Third Professional MBBS |
| 4 th Phase | 1.5 Year | Medicine & Allied Subjects Surgery & Allied Subjects Gynaecology & Obstetrics | 500 500 500 | Final Professional MBBS |

NB: All academic activities including professional examination of each phase must be completed within the specified time of the phase

Pass mark is 60% in each written, oral & practical/clinical exam separately

Marks and pattern of questions in written examination in each subject are distributed as, 10% of the marks of written examination of each paper of each subject is allocated for formative assessment, 20% is allocated for MCQ and 70% for SAQ (Except in Com. Medicine). There are separate answer scripts for MCQ examinations. There are twenty MCQ questions for each written paper. Each question has got five items, Time allocation is 30 minutes for 20 MCQ questions, and two & half hours for the SAQ questions.

ACADEMIC FACILITIES

Dhaka Central International Medical College (DCIMC) is a one of the modern state of art academic institutions, which is approved by the Ministry of Health & Family Welfare, Govt. of People's Republic of Bangladesh, Bangladesh Medical & Dental Council (BM&DC) and affiliated by the University of Dhaka. DCIMC also has the most well equipped Hospital facilities and highly qualified consultants.

A brief description of the available facilities is given below:

- Lecture Halls with audio-visual facilities and communication.
- Adequate spacious classrooms and tutorial room for the each department.
- Laboratories and dissection facilities for all the students.
- Centrally monitored and computerized library.
- Centrally air conditioned campus.
- Common rooms for the female students.
- Fully secured and separate air conditioned hostel for male and female students under respective hostel supervisor.
- Teaching with the state of art interactive board.
- WI-FI campus.
- Modern teaching methods.
- Prayer facilities for the students and staffs.

Library

The college library is spacious, well-furnished and fully air-conditioned with comfortable sitting arrangement, located in the academic building. It has a good collection of medical textbooks, reference, monographs, and journals in various subjects who can provide up to date information to the students and teachers. The library is also equipped with computers. It has user friendly access system, the library is provided with separate area for students as well as teachers. It remains open from 9:00 am to 9:00 pm in all working days.

ACADEMIC FACILITIES

Hospital facilities

DCIMC is a well equipped modern teaching hospital along with the medical college section, which is located in the same premises.

- 24 hours casualty service
- 24 hours Pathology lab service
- 24 hours Imaging , Radiology, ECG, CT Scan and MRI
- Imaging systems like Ultrasound
- ICU, NICU, HDU services
- Haemodialysis
- Endoscopy & Colonoscopy
- Ventilator care under Anaesthesiology Department
- Computerized Pulmonary function lab under
- Chest & TB
- Surgical Intensive Care unit
- Medical Intensive Care Unit
- Trauma Care Unit
- Lecture hall, Blood Bank and
- Laboratory complex
- Obst & Gynaecology block
- Nursing Unit
- ENT & Ophthalmology facilities
- Urology & Nephrology
- IVF
- Diabetic care service
- Women's Care Center
- Radiology & Imaging Center
- IR Suite
- Advanced Center of Kidney & Urology (ACKU)

Lab facilities

All departments have individual laboratories which are fully equipped with all modern lab facilities for smooth conduction of experiments.

ACADEMIC COUNCIL & ADMINISTRATION

DHAKA CENTRAL
INTERNATIONAL
MEDICAL COLLEGE

Academic council

The college academic council is composed of the principal and senior faculty members ranging from professors to assistant professors of all the departments of the college along with two student representatives.

Academic council is the highest decision making authority of the college, regarding all academic activities, administrative matters, and student matters relating to the college.

The decisions of the academic council, within the legal framework of the country and not in conflict of the rules of the Directorate of Health Services, Bangladesh Medical and Dental Council, and the University of Dhaka, will be bindings to all the teachers, officers' employees and students of the college.

Administration

The principal is the executive head of the college. He is advised by academic council and other forums. The college runs on self-financing and non-profit basis. Deficits on capital and development if any are met up by Dhaka Central International Medical College Trust. Principal along with the academic council looks after the human resource management, the education programs, and maintain academic atmosphere in the college.

IN COURSE EXAMINATION & INTERNSHIP

In Course Examination

Regular study and following the classes are indispensable for passing through the vast curriculum of the MBBS course. To conform to the need of the course and achieving high standard regular periodic class tests, assignments, item, card final and term final examinations are conducted by each department. The card final and term final examinations try to mimic the University conducted professional examinations (discussed below).

10% of the marks of the written examination of each subject in the professional examinations are allocated to the scores obtained from in course evaluations and class attendants. Only those students, who would acquire at least 60% marks in the course evaluations and attend a minimum 75% of the classes, are allowed to sit in the professional examinations.

Internship Training

Students who successfully pass through the final professional MBBS Examinations are required to undergo one year compulsory Internship Training in a BM&DC recognized hospital which of course include Dhaka Central International Medical College. It is prerequisite for each medical graduate to be a BM&DC recognized registered doctor and thus achieving the legal status of providing health care service and prescribe medicine.

Dhaka Central International Medical College has developed the full facility to design a fully structured and supervised training to develop the necessary skills and attitudes to deal with common health problems, to work in any hospital and community environment. The trainees are also entitled an appropriate subsistence allowance/ honorarium during the Internship. An Internship certificate mentioning the performance is issued by the hospital and academic authority.

MEDICAL COLLEGE**

INSTRUCTION FOR THE STUDENTS

Admitted students are to observe the following rules and regulations

- The students are expected to maintain the highest standard in their academic activities.
- Every student must have for himself/herself all the prescribed text books, dissecting instruments, medical equipment etc. The college will not supply these to the students.
- All students are to carry their "Identity Card" while they are in the college.
- All students are to attend the classes with clean dress.
- While in the college they should wear white apron, with their name plates on the left front side of the apron.
- Fashionable dresses, untidy hair, slippers are not allowed in the college campus.
- Rings, bangles are not allowed as they cause impediments to practical work.
- Students may inform their problems / grievances / inconveniences to the teacher guide. The guide will try to solve the problems of the students or refer them to the principal.
- Statements of the problems / grievances / inconveniences by the students must be in an orderly and disciplined manner. Any act of indiscipline on the part of any student including usage of abusive words or objectionable words and sentences, will make the students liable to punishment by expulsion from the college.
- All types of demonstrations, processions, shouting in the college and hospital premises are prohibited and students, who involve are liable to be expelled from the college.
- Political activities are not permitted in the college.
- Any verbal or physical violence is liable to disciplinary action.
- Smoking, alcoholism, narcotic drugs are strictly prohibited in the college and hospital campus.
- Environment is to be kept clean.

INSTRUCTION FOR THE STUDENTS

Admitted students are to observe the following rules and regulations

- Students should throw litters only to the waste paper baskets.
- Pasting of posters on the walls of the college and the hospital buildings and or hanging of posters in the college and in the hospital premises are prohibited. These are considered as acts of indiscipline and offenders are liable to punishment.
- Closing of college and hospital gates, doors of the college, or the hospital departments or creating obstacles to the normal functions of the college and/or hospital are acts of gross indiscipline and students involved in such liable to be excelled from the college.
- Students must not misbehave with the staffs or employees of the college or the hospital.
- Acts of misbehavior are also the acts of indiscipline and are liable to punishment.
- A student has to continue paying his/her tuition fees and session fees till he/she passes final professional examination.
- Absence from classes individually or in group or in a mass without prior information / without valid reasons are punishable by imposition of Tk. 100 / fine for each class individually. Guardian will be informed for such acts.
- Students are allowed to use library. They will seat and read. Books will be issued to the students for reading in the library or home, depending on availability.
- Cost or loss or damage to college / hospital property is liable to be realized from the student found responsible for the loss or damage.
- In case of illness or other unavoidable reasons for nonattendance, a written statement from the parent/guardian is to be presented to the teachers concerned, who in turn would submit it to the principal for approval.
- All students who have successfully qualified their MBBS degree are to undergo one year internship training (Hospital Training) as per rules and regulations of BM&DC (Bangladesh Medical & Dental Council).
- At the time of admission into the college the students and parents / Guardian will have to sign a bond that their children will abide by the rules and regulations of the college.
