Doctors and supporting health professionals are the backbones of the health care delivery system. Yet the health care professionals & population ratio in our country is still one of the lowest in the world. At present, the doctor population ratio in Bangladesh is 1: 3125. Till now the available seats in medical colleges, public & private sector together is far too short to meet the requirement of the countries ever-growing need in this sector. In our country a large number of students are willing to take part in the health care system, which is evidenced by the large number of applicants for admission to medical colleges and hospital.

BACK GROUND

Unfortunately, most of the eligible candidates are deprived of the opportunity of getting admitted to the medical colleges of Bangladesh due to lack of enough seats: This results in confusion over the career planning of the eligible candidates, whose desires and dreams to be a doctor would be nipped in the bud. Also migration of thousands of students for studying abroad, mainly in the neighboring countries resulting in constant draining of our national economy for supporting their studies and as a consequence dependence on other countries for education and health care delivery grows immensely.

In this context, Dhaka Central International Medical College is a humble initiative to provide scope for the eligible candidates to contribute to the health sector of Bangladesh. DCIMC is a brainchild of some of the most generous business entrepreneurs, doctors, and philanthropists.

It is my honor to have this opportunity of welcoming the prospective student of Dhaka Central International Medical College. The journey of DCIMC began from 18th January 2012 with a promise to provide the best medical graduate.

We are at the verge of developing the hospital to a state of art Medical College & Hospital. We furnished our college laboratory & museum of the basic subject with most modern and sophisticated equipments and two, five headed microscope, one for anatomy and another for pathology department for the better learning of our students. We have spacious well equipped library & lecture halls with full air conditioned. Side by side for the growing need of health service we have nursing institutewhere Diploma in Nursing Science, BSc in Nursing Science & Post Basic BSc Nursing are running. We furnished our hospital diagnostics & imaging center with all latest and modern equipments including 128 Slice CT Scanner Machine, Recently we also install RT-PCR Lab for Covid-19 test and 3 Tesla MRI and 256 Slice CT Scan on the way.

Dialysis unit with full satisfaction of patients. Our aim is to provide most modern and sophisticated medical service to the common people of Bangladesh, with this idea we have also started Diabetic Center and Advanced Center of Kidney & Urology (ACKU) for the treatment of KUB diseases. All the clinical departments of the hospital fully prepared to arrange proper training facilities for the students, and thus will contribute appreciably in the health education of the country and we hope we can be able to provide good and affordable medical care to the people of our country In Sha Allah.

During the Covid-19 Pandemic our Hospital running well, we treated many of the Covid patients. On line class from April, 2020 & Examination of all Phase according to Govt. Schedule. Lots of Doctor, Health worker & many others died due to Covid-19. We pray to Allah for all of them.

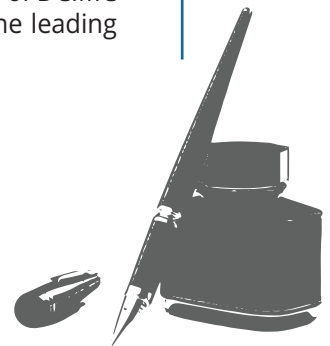

Since our college is approved and recognized by BM&DC, we are already admitting foreign student from session, 2015-16. Our 5th batch including foreign students passed MBBS courses successfully. We congratulate all the new doctors and upcoming doctors. This year we will admit student of 11th batch, Good wishes for them.

I truly believe and hope that the new students would leave no stones unturned to achieve the best outcome from this institution to alleviate human sufferings from disease & debility and contribute to the society with moral and dedication. Thanks to all the teacher and founder member of DCIMC as well as all the guardians at home & broad for keeping their faith on us as one of the leading medical study center and health care provider in the country.

Dr. Md. Abdul Hye Chowdhury

Chairman, Governing Body

Dhaka Central International Medical College & Hospital

This is my great pleasure and honour to have the opportunity to express my emotions, feelings and thought in this prospectus going to be published by Dhaka Central International Medical College.

Medical science started its glorious journey from the dawn of civilization and passes through many ups and downs.

Yet over the time, Medical science has reached today's height combating many diseases by prevention as well as treatment. Continued medical education, research and innovation are the integral parts of ongoing development of medical science to find out the root causes of disease, their remedies and prevention. Keeping these in mind and to create promising doctors, Dhaka Central International Medical College started its delighted journey in the year 2012 by the grace of Almighty. Already the students of 1st to 5th batches have completed their study and are doing their best to serve the humanity.

The Father of Medicine, Hippocrates said, "wherever the art of medicine is loved, there is also love of humanity.

"This Institute strongly believes it and is committed to create and develop future generations of patient loving promising doctors. To fulfill this, the Institute has developed student loving environment, digital class room with internet facility, well equipped laboratories, library and adjacent modern hospital with good number of patients for practical learning of the students.

Communication skill is the integral part of good medical practices. To facilitate this, appropriate environment is designed for the students to encourage them to involve in the co-curricular activities like seminar, symposium and workshops and also in the extracurricular activities like yearly sports, different cultural programmes. All the performances are accomplished by learned experienced teachers supported by student friendly management authority.

Finally best wishes and thanks to all involved in continuous development of Dhaka Central International Medical College, and congratulations to all upcoming students and their guardians.

Professor Dr. BidhuBhushan Das

Principal

Dhaka Central International Medical College

It is a great pleasure to me to welcome you in the Dhaka Central International Medical College. Education is considered to be a core instrument of human development. It is not only processes of giving knowledge but also creates an understanding of moral and ethical values of human values. This college is one of the leading medical college of our country and become a centre of the excellence in a short period of its establishment.

Our motto is to provide quality medical education to our students and also produce good doctors with compassion and zeal to serve the society. This college has various teaching departments which are well equipped and have all the latest facilities to impart medical education. We have highly qualified faculty members having vast teaching experience and strong academic background.

We already have admitted foreign students from session 2015-2016, about 50% of students come from abroad and first batch of foreign students have successfully graduated and been awarded MBBS degree from the University of Dhaka (year 2021).

I am proud to say that in last session 2 students stood board stand (5th & 7th Position) under Dhaka University and also 7 students got honors mark.

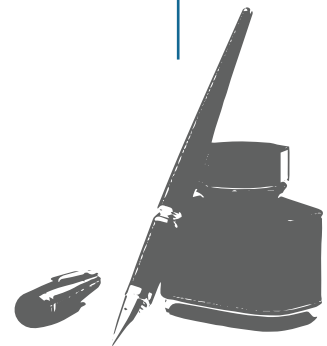

The academic activities is not the only focal point, various co- curricular activities are also planned. Our brilliant students have brought success in academics activities as well as in co- curricular activities.

Best wishes to all my students, college staff as well as hospital staff.

Professor Dr. Zakia Akhter

Vice principal

Dhaka Central International Medical College

I take the privilege and honor to share with you that DCIMC&H (Dhaka Central International Medical College & Hospital), is one of the leading private medical college & hospital in the country. It has got a nursing college and institute affiliated with the medical college hospital to train the nursing manpower at academic environment of medical college.

Our goal is to produce competent, compassionate and dedicated health care professionals to serve the nation and the humanity as well.

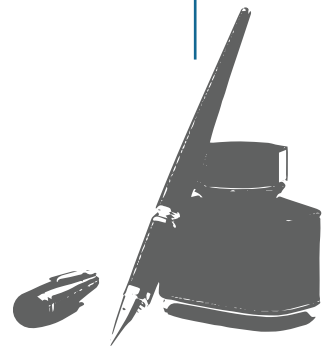

Our vision is to deliver advanced, trustworthy patient care services to all classes of peoples with empathic rational manner and moral attitude.

We have a robust presence across the nation for health care service delivery which includes all sorts of emergency service, pharmacy service, critical care service, haemodialysis & peritoneal dialysis service, interventional radiological service, tertiary level consultancy as well as operational service along with all routine inpatient and outpatient services. More than 80 renowned faculties of different specialties are engaged themselves both morning and evening to serve the community through this institution.

Mujib Borsho is the year declared to celebrate on the occasion of the centennial birth anniversary of the founding leader of Bangladesh, Bangabandhu Sheikh Mujibur Rahman. He was born on March 17, 1920 in East Bengal (now in Tungipara village of Gopalganj district of Bangladesh). His father, Sheikh Lutfar Rahman, was a serestadar (court clerk) of the Gopalganj Sessions Court and his mother's name is Sayera Khatun. Bangabandhu, the third among six brothers and sisters of his parents. The Government of Bangladesh has declared the year 2020-21 as the Mujib Year. This year will be celebrated from March 17, 2020 to December 16, 2021(Extended to 9 months, from 17 March 2021 to 16 December 2021). The inauguration of the ceremony of "Mujib Borsho" started with reciting the national anthem and hoisting the flag.

The honorable Chairman Dr. Md. Abdul Hye Chowdhury, College Principal Prof. Dr. Bidhu Bushan Das, Vice-Principal Prof. Dr. Zakia Akhter and Director Hospital Major (Retd) Dr. Mohd. Toufikul Muneem cordially supported and reinforced this event to be successful to celebrate the DCIMC ceremony of "Mujib Year". All Professors, Teachers, Intern Doctors and Medical Students, Medical college staffs and hospital staffs were present in this significant ceremony along with the honourable Cultural Personal. We arranged seminars, workshops, discussion meetings on Mujib Year. We also organized free medical camp, blood donation camp in our premises. We have setup Bangabandhu Dialysis corner in hospital where every day one patient get free dialysis and Bangabandhu Corner in our library .

"As long as the Padma, Gouri, Jamuna flows, on Your accomplishment will also live on, Sheikh Mujibur Rahman"

MBBS COURSE

BASIC INFORMATION

1. Name of the course

- Bachelor of Medicine & Bachelor of Surgery (MBBS).

2. Basic qualifications & prerequisite for MBBS Course

- HSC or equivalent with science (Biology, Physics, Chemistry).
- Candidates has to secure a required grade point in the SSC and HSC examinations.
- Candidate has to secure a required grade point in the MBBS admission exam.

3. Student selection procedure for MBBS course

As per approval by the DCIMC admission committee, selection will be made.

- According to the MBBS admission test merit list.
- 5% of total students will be selected based on poor and meritorious quota
- 2% freedom fighters quota.

4. Medium of instruction

- English

5. Duration

MBBS course comprises of five years, followed by logbook and one year Internship training.

Foreign student admission requirements

Foreign students need to apply according to the rules & regulations of their respective countries through their Embassies. Students need to collect equivalence certificates of S.S.C Level and H.S.C A Level from the Director General of Health Services, Governments of People's Republic of Bangladesh.

MBBS COURSE BASIC INFORMATION

COURSE STRUCTURE, DURATION AND MARKS DISTRIBUTION

The MBBS course is divided into four phases

PHASE	DURATION	SUBJECTS	EXAM MARK	EXAMINATION
1 st Phase	1.5 Year	Anatomy Physiology Biochemistry	500 400 400	First Professional MBBS
2 nd Phase	1 Year	Pharmacology & Therapeutics Forensic Medicine & Toxicology	300 300	Second Professional MBBS
3 rd Phase	1 Year	Community Medicine Pathology Microbiology	300 300 300	Third Professional MBBS
4 th Phase	1.5 Year	Medicine & Allied Subjects Surgery & Allied Subjects Gynaecology & Obstetrics	500 500 500	Final Professional MBBS

Pass Mark is 60% in each Written, Oral & Practical/Clinical Exam Separately

Marks and pattern of questions in written examination in each subject are distributed as, 10% of the marks of written examination of each paper of each subject is allocated for formative assessment, 20% is allocated for MCQ and 70% for SAQ (Except in Com. Medicine). There are separate answer scripts for MCQ examinations. There are twenty MCQ Questions for each written paper. Each question has got five items, Time allocation is 30 minutes for 20 MCQ questions, and two & half hours for the SAQ questions.

ACADEMIC FACILITIES

Dhaka Central International Medical College (DCIMC) is a one of the modern state of art academic institutions, which is approved by the Ministry of Health & Family Welfare, Govt. of People's Republic of Bangladesh, Bangladesh Medical & Dental Council (BM&DC) and affiliated by the University of Dhaka. DCIMC also has most well equipped Hospital facilities and highly qualified consultants.

A brief description of the available facilities is given below:

- Lecture Halls with audio-visual facilities and communication.
- Adequate spacious classrooms and tutorial room for the each department.
- Laboratories and dissection facilities for all the students.
- Centrally monitored and computerized library.
- Centrally air conditioned campus.
- Common room for the female students.
- WI-FI campus.
- Modern teaching methods.
- Prayer facilities for the students and staffs.

LIBRARY

The college library is spacious, well-furnished and fully air-conditioned with comfortable sitting arrangement, located in the academic building. It has a good collection of medical textbooks, references, monographs, and journals in various subjects which can provide up to date informations to the students and teachers. The library is also equipped with computers. It has user friendly access system, the library is provided with separate area for students as well as teachers. It remains open from 9:00 am to 9:00 pm in all working days. We established Bangabandhu corner in the library last year.

HOSPITAL FACILITIES

DCIMC is a well equipped modern teaching hospital along with the medical college section, which is located in the same premises.

- 24 hours casualty service
- 24 hours Pathology lab service
- 24 hours Imaging, Radiology, ECG, CT Scan
- RT-PCR Lab
- Imaging systems like Ultrasound
- ICU, NICU, HDU services
- Haemodialysis
- Endoscopy & Colonoscopy
- Ventilator care under Anaesthesiology Department
- Computerized Pulmonary function lab under
- Chest & TB
- Surgical Intensive Care Unit

- Medical Intensive Care Unit
- Blood Bank and Laboratory Complex
- Obst & Gynaecology Block
- Nursing Unit
- ENT & Ophthalmology facilities
- Urology & Nephrology
- Diabetic Care Service
- Women's Care Center
- Radiology & Imaging Center
- Advanced Center of Kidney & Urology (ACKU)

LAB FACILITIES

All departments have individual laboratories which are fully equipped with all modern lab facilities for smooth conduction of experiments.

ACADEMIC COUNCIL & ADMINISTRATION

Academic council

The decisions of the academic council, within the legal framework of the country and not in conflict with the rules of the Directorate of Health Services, Bangladesh Medical and Dental Council, and the University of Dhaka, will be bindings to all the teachers, officers' employees and students of the college. Academic council is the highest decision-making authority of the college, regarding all academic activities, administrative matters, and student matters relating to the college.

Administration

The principal is the executive head of the college. He is advised by the academic council and other forums. The college runs on a self-financing and non-profit basis. Deficits on capital and development if any are met up by Dhaka Central International Medical College Trust. The principal along with the academic council looks after the human resource management, the education programs, and maintains the academic atmosphere in the college.

OFFERED COURSE & AFFILIATIONS

Course offered & affiliation

Dhaka Central International Medical College offers 5 years MBBS course approved by BM&DC leading to MBBS degree of the University of Dhaka. The college has been permitted by the Ministry of Health & Family Welfare, Govt. of the People's Republic of Bangladesh and affiliated with the University of Dhaka.

CODE OF CONDUCTS DISCIPLINARY COMMITTEE

Conduct & Discipline

All students are required to abide by the rules and regulations of the college. Non-adherence to these rules and regulations will make the students liable for disciplinary action, which may range from warning to expulsion from the college. Students of Dhaka Central International Medical College are forbidden to organize a union, association or society, other than those approved by the authority, in order to enrich their physical, intellectual, social and ethical development.

Disciplinary Committee

1. Principal- Chairman
2. Vice Principal- Member
3. Hospital Director- Member
4. All Full Professor- Member
5. Hostel Super- Co-Opt

Admission in DCIMC

Director General of Health Service (DGHS), Government of the People's Republic of Bangladesh conducts a central written admission test at the national level for admission in the government and non-government medical colleges each year. They publish a merit list for eligible candidates. The authority of medical college selects the students according to the merit list from the students who applied for admission in DCIMC.

Fitness Test

The selected candidate will be examined by a medical board for their physical fitness. The medical board will be formed by the principal of medical college

LEGAL CLAUSE

FEES & EXPENSES

Undertaking in form of Bond

During admission into the college, the candidates and their parents or guardians are required to sign a bond on non-judicial stamp regarding the terms and conditions of study conduct and discipline. Admission formality will be incomplete without submission of the bond.

Tuition & Incidental Fees

Admission fees payable at the time of admission will be notified in suitable time. All payments are to be made in full at the time of admission which are non-refundable .

- Tuition fee is payable on monthly basis within the first week of each month.
- Failure of payment on the due date will result in a fine Tk 50/- on a daily basis.
- If monthly fees are delayed more than one month student name will be removed from the attendance registrar.
- The name of the student will be removed from the college registrar if tuition fees are not paid for 3 consecutive months. In such a case the student has to pay readmission fees to get re-enrolment.
- Tuition fees will have to be cleared before each professional examination.
- The rates are however subject to change as a required.
- Internship Fee is not included in the course fee. If any students wants to complete internship from DCIMC, student have to pay the internship fees as per private medical college intern payment rules that is declared by MOH&FW Bangladesh.

- Regular attendants at least 75%
- Attendants in Clinical Placement should be at least 75%
- All Items & Card Examination should be clear
- All the dues should be clear
- Term Examinationa should be passed

INCOURSE EXAMINATION & INTERNSHIP

In Course Examination

Regular study and following the classes are indispensable for passing through the vast curriculum of the MBBS course. To conform the need of the course and achieving high standard regular periodic class tests, assignments, item, card final and term final examinations are conducted by each department. The card final and term final examinations try to mimic the University conducted professional examinations (discussed below).

10% of the marks of the written examination of each subject in the professional examinations are allocated to the scores obtained from in course evaluations and class attendants. Only those students, who would acquire at least 60% marks in the course evaluations and attend a minimum 75% of the classes, are allowed to sit in the professional examinations.

Internship Training

Students who successfully pass through the final professional MBBS Examinations are required to undergo one year compulsory Internship Training in a BM&DC recognized hospital which of course include Dhaka Central International Medical College. It is prerequisite for each medical graduate to be a BM&DC recognized registered doctor and thus achieving the legal status of providing health care service and prescribe medicine.

Dhaka Central International Medical College has developed the full facility to design a fully structured and supervised training to develop the necessary skills and attitudes to deal with common health problems, to work in any hospital and community environment. The trainees are also entitled an appropriate subsistence allowance/ honorarium during the Internship. An Internship certificate mentioning the performance is issued by the hospital and academic authority.

INSTRUCTION FOR THE STUDENTS

Admitted students are to observe the following rules and regulations

- The students are expected to maintain the highest standard in their academic activities.
- Every student must have for himself/herself all the prescribed text books, dissecting instruments, medical equipment etc. The college will not supply these to the students.
- All students are to carry their "Identity Card" while they are in the college.
- All students are to attend the classes with clean dress.
- While in the college they should wear white apron, with their name plates on the left front side of the apron. Fashionable dresses, untidy hair, slippers are not allowed in the college campus.
- Rings, bangles are not allowed as they cause impediments to practical work.

- Students may inform their problems/grievances/inconveniences to the teacher guide. The guide will try to solve the problems of the students or refer them to the principal.
- Statements of the problems/grievances/inconveniences by the students must be in an orderly and disciplined manner. Any act of indiscipline on the part of any student including usage of abusive words or objectionable words and sentences, will make the students liable to punishment by expulsion from the college.
- All types of demonstrations, processions, shouting in the college and hospital premises are prohibited and students, who involve are liable to be expelled from the college.
- Political activities are not permitted in the college. Any verbal or physical violence is liable to disciplinary action.
- Smoking, alcoholism, narcotic drugs are strictly prohibited in the college and hospital campus.
- Environment is to be kept clean.

INSTRUCTION FOR THE STUDENTS

Admitted students are to observe the following rules and regulations

- Students should throw litters only to the waste paper baskets.
- Pasting of posters on the walls of the college and the hospital buildings and or hanging of posters in the college and in the hospital premises are prohibited. These are considered as acts of indiscipline and offenders are liable to punishment.
- Closing of college and hospital gates, doors of the college, or the hospital departments or creating obstacles to the normal functions of the college and/or hospital are acts of gross indiscipline and students involved in such liable to be expelled from the college.
- Students must not misbehave with the staffs or employees of the college or the hospital. Acts of misbehavior are also the acts of indiscipline and are liable to punishment.
- A student has to continue paying his/her tuition fees till he/she passes final professional examination.

- Absence from classes individually or in group or in a mass without prior information / without valid reasons are punishable by imposition of Tk. 50 / fine for each class individually. Guardian will be informed for such acts. Students are allowed to use library. They will seat and read. Books will be issued to the students for reading in the library or home, depending on availability.
- Cost or loss or damage to college / hospital property is liable to be realized from the student found responsible for the loss or damage.
- In case of illness or other unavoidable reasons for nonattendance, a written statement from the parent/guardian is to be presented to the teachers concerned, who in turn would submit it to the principal for approval.
- All students who have successfully qualified their MBBS degree are to undergo one year internship training (Hospital Training) as per rules and regulations of BM&DC (Bangladesh Medical & Dental Council).
- At the time of admission students and parents/guardian will have to sign a bond that their children will abide by the rules and regulations of the college.
